

The Nutrinity Studio - Women's Edition

PRICING & VALUE BREAKDOWN

One flat, pocket friendly fee

1. Why Pay for Nutrinity Studio – Women’s Edition? 🤔

You’re not paying for “just another online session”. You’re paying for a full, structured learning experience that’s been designed especially for you:

- 📅 4 days of planned learning (not a random 2-hour talk)
- 🎮 2 full game-style assessment days to actually test and fix your concepts
- 🎥 Recording access so you don’t lose anything if life gets busy
- 📘 Around 15 well designed PDFs, PPTs & checklists you can reuse for exams, vivas and presentations
- 🌐 E-certificate that actually represents a full Edition, not just one workshop
- 📲 Official WhatsApp group where everything is organized and easy to follow

2. Why It’s Better Than a Normal Workshop or Long Course ⚖️

Most students get stuck between two extremes:

- Workshops: 1–2 day marathons, everything rushed, nothing sticks.
- Long courses: too heavy, too expensive, and hard to follow with uni.

Nutrinity Studio is built as a soft sweet spot for you

- ⌚ Short sessions instead of long, draining ones
- 🎯 One focused topic (women’s health) for one week instead of 10 scattered topics
- ✖️ Life-course flow: adolescence → pregnancy → menopause → aging, all linked
- 😊 Light enough to fit your routine, deep enough to finally make sense

3. What Are You Really Paying For? 💭

You’re not paying Rs. 999 for pre-recorded sessions.

You’re paying to fix this feeling: “Women’s health is scattered in my mind. I want it to finally make sense.”

Think of the cost of not fixing it:

🧐 Confusion in exams and vivas

🤔 Staying quiet in discussions because you're not fully sure

✖ Always feeling like "I'll understand this properly later"

4. Why Only Rs. 999? 😊

We've seen "specialized" programs at:

- Rs. 3,000-15000 for short courses many students can't afford

We didn't build Nutrinity Studio to be another thing only a few can join.

We'd rather keep it low and accessible and bring in serious learners.

But there's a catch

- ➡ Seats are limited, we don't want a 300+ Zoom where nobody can engage
- ➡ The registration link goes first to our WhatsApp group
- 🔒 Once we hit our comfortable number, we will close registrations

If your gut is saying 🤝

"I actually need this kind of clarity in women's health,"

then Rs. 999 is not the risky part.

Staying confused is!
